# Our Business

Based on the concept, positioning, and targeting, we are enhancing our total solution functions that provide one-stop service to meet a wide range of client needs including brand development, product planning and purchasing, investment in production equipment, logistics design, and global market deployment. We source the most suitable materials and utilize our production sites centered in Asia to supply high-quality fashion and textile products.

## OEM/ODM Business

We offer, manufacture, and sell a variety of products that our clients demand in the categories of men's and women's fashion apparel, sports and outdoor clothing, functional clothing, home linens such as bedding and interior items, accessories, and undergarments.

## Functional Textiles & Materials Business

We utilize a wide-ranging network in Japan and overseas to deliver high-performance textiles and high-performance materials to the market.

## Brand Business

We offer a variety of products that enrich everyday life through the licensed, imported, and original brands we represent.

## Digital Business

As a program for DX in textile products, we are digitalizing woven fabrics, knitted fabrics, pattern data, and other data, and are producing 3D samples using high-definition 3D computer graphics (3DCG) technologies in order to improve work efficiency and carry out eco-friendly and sustainable production.
